Description

Alalunga 70 is a beautifully maintained motor yacht, built with a GRP hull and superstructure and delivered in 1998. She features a deep-V planing hull with teak decking throughout, including the flybridge and bathing platform. She is exceptionally well equipped and has been fully refurbished. Powered by twin M.A.N. diesel engines of 1200hp each (both reconditioned in 1250 working hours) and fitted with conventional shafts, the vessel achieves a top speed of up to 32 knots.

The interior comfortably accommodates (8) guests in (4) cabins comprising a full-beam Master suite located amidships, a forward VIP suite, a twin guest cabin with single berths, and a twin guest cabin with berths in (L) shape. All cabins feature en-suite bathrooms.
The yacht also accommodates up to (2) crew members in a crew cabin with private facilities, located in separate crew quarters aft. Spacious accommodation is complemented by generous indoor and outdoor living areas, offering ample space for relaxation and entertaining underway and at anchor.
