Puissance	**21 cv (15 kW)**

Description

Hier ist eine professionelle und natürlich klingende englische Übersetzung für internationale Verkaufsplattformen wie YachtWorld oder Boat24:

Dehler 34 – Performance That Inspires

The **Dehler 34** perfectly combines outstanding sailing performance, premium craftsmanship and exceptional cruising comfort. Designed by the renowned naval architects **judel/vrolijk & co.**, she is built for sailors who refuse to compromise—whether enjoying an evening sail, embarking on extended cruises or competing in regattas. The yacht was designed by judel/vrolijk & co., while the interior was developed by Dehler.

Leading sailing magazines have praised the Dehler 34 for successfully combining performance and comfort. In its sea trial, **YACHT** highlighted how she inherits the character of her larger sisters, delivering impressive sailing performance while offering a remarkably comfortable and spacious interior. The magazine also noted that the various keel, rig and sail configurations allow owners to tailor the yacht to their individual sailing style.

Yachting Monthly also commended the Dehler 34 for her impressive speed, responsive helm and precise handling. The review particularly praised her ability to reward sailors who enjoy trimming sails and actively sailing the boat, while remaining comfortable and forgiving enough for extended cruising with family and friends. The editors concluded that the Dehler 34 is a fast, attractive and highly enjoyable yacht to sail without being overly demanding or extreme.

Below deck, the Dehler 34 impresses with a bright, contemporary interior. The spacious owner's cabin forward, comfortable aft cabin and inviting saloon provide ample accommodation for extended stays aboard. High-quality furnishings and a thoughtfully designed lighting concept create a warm and welcoming atmosphere.

On deck, twin steering wheels, premium LEWMAR deck hardware, the German mainsheet system and the integrated composite bowsprit ensure excellent ergonomics and sporty handling. The aluminium rig with **ELVSTRØM** sails, headsail furling system and the Dehler Quick Reefing System make sailing easy, safe and efficient—even with a small crew or when sailing single-handed.

A reliable diesel engine with saildrive, modern onboard systems and generous fuel and freshwater capacities complete the package, making the Dehler 34 equally well suited for demanding coastal passages and extended cruising.

The **Dehler 34** is the ideal yacht for sailors seeking outstanding sailing performance, precise handling and premium comfort—a modern performance cruiser that delivers as much enjoyment under sail as she does at anchor or in the marina.
