Modèle	**Volvo Penta D4**
Puissance	**270 cv (199 kW)**

Description

With only 325 engine hours, full service history, and warm indoor storage every winter, this is an example for those looking for a boat in excellent condition where you can simply launch and enjoy the summer.

The powerful Volvo Penta D4-270 with DPH drive, along with the bow thruster, automatic trim tabs, and modern navigation, makes the boat easy to handle both in the harbor and at sea. The open and social cockpit, together with the large opening sunroof, provides an airy feel. The boat offers overnight accommodation with two cabins, a toilet, and a well-equipped galley, and the salon can be converted for additional sleeping space. The large kitchen with good storage and dual refrigeration options makes cooking on board easy and enjoyable.

The large swim platform along with the Grandezza sofa creates a natural place to spend a lot of time. The boat has always been stored indoors during winter since new, and all service work has been performed by an authorized Volvo Penta mechanic. Complete service was carried out in 2026, including engine and drive service, replacement of bellows, new anodes, and inspection of the drivetrain.

EQUIPMENT LIST

ENGINE & PROPULSION
• Volvo Penta D4-270 DPH
• 325 running hours (the equipment section in the documentation also states 320 running hours)
• Bow thruster with wireless remote
