Description

The Highfield ADV 9 is a bold reimagining of the high performance cabin crossover. It’s purpose built for true adventure and modern comfort. With sharp lines, an un-compromising layout, and RIB style architecture, it blends offshore capability with sleek styling and market leading practicality. With its spacious interior, the ADV9 suits extended family cruising. Slide on tubes future proof the boat with easy upgrades and reduced damage risk, while improving water deflection, docking safety, and onboard security – especially in rough conditions. As a fully self contained weekender, the ADV9 offers up to 2 berths in a heated cabin, galley, head - creating a truly multi seasonal vessel. A flush deck, wide beam, high freeboard, and direct swim platform access enhance safety and usability. Its non stepped hull design not only ensures smooth trailering and compatibility with floating docks but also offers easy handling in all conditions. With up to 50 knot performance, up to 250NM cruising range, and four lifting points, the ADV9 stands out as a versatile, high spec vessel.

Deck:
GRP hull + Hypalon tubes. Mangrove colour scheme. Hard top. Hard top rack system with fishing rod holders built in to hard top system. Non skid Flexiteak deck with bleached colour with black caulk.
