Intérieur	**congélateur, four, machine à laver, micro-ondes, réfrigérateur**
Sécurité	**canot de sauvetage**
Voiles	**gennaker**

Description

Lagoon 420 Owners Version – Exceptionally Equipped Cruising Catamaran

The Lagoon 420 Owners Version is a highly capable and comfortable cruising catamaran, offering an excellent combination of space, autonomy and offshore cruising capability. With her generous beam, shallow draft and well-appointed three-cabin layout, she is ideally suited to extended cruising and life on board.

This example is powered by twin Yanmar 3JH5E 40hp diesel engines with approximately 380 hours, complemented by Yanmar SD50 sail drives. Both engines and sail drives have benefited from extensive servicing and overhaul, including replacement of the sail drive bellows and propellers.

Particularly well equipped for long-distance cruising, the yacht features a comprehensive Raymarine navigation package including GPS/plotter, radar, autopilot, wind, depth and speed instruments, DSC VHF and AIS. A Furuno Navtex and PC connection further enhance her offshore navigation capabilities.

Her energy systems are designed to provide a high degree of autonomy, combining a 17kW diesel generator, inverter/chargers, AGM service batteries and six solar panels with an OutBack Power System solar management installation.

Comfort on board is equally impressive. The yacht benefits from air conditioning throughout the accommodation, a 140 L/hour automatic watermaker, pressurised hot and cold water, three heads, washing machine, induction cooking, multiple refrigerators and a dedicated freezer. The spacious owner's stateroom and two guest cabins provide comfortable accommodation for extended stays on board.

For sailing and deck handling, she is equipped with multiple electric Harken self-tailing winches, electric windlass and capstan, stainless-steel davits with electric winch, and a furling gennaker. A rigidly equipped RIB with Yamaha 15hp outboard is also included, together with a second outboard.

Safety equipment includes an 8-person liferaft, sea anchor, drogue, radar reflector, fire extinguishers and smoke detection systems, making her particularly well suited to offshore cruising.

With a shallow 1.26m draft, twin keels, two spade rudders and wheel steering, this Lagoon 420 offers excellent versatility for cruising in a wide range of destinations.

A very well-equipped Owners Version with exceptionally low engine hours, substantial energy autonomy and a comprehensive range of cruising equipment, ready to offer her next owner a comfortable and independent cruising experience.
