Toilets: 4
Max. passengers: Registered for 11
Fuel tank: 1040 l
Engine: 2 × 107 HP (2 × 78.70 kW)

This 2020 Lagoon 50 represents the perfect evolution between the iconic 450 and the larger 52, offering an ideal balance for owners seeking a modern, seaworthy multihull with exceptional volume and refined design. Its contemporary visual identity, updated rigging, and optimized hull lines deliver both elegance and enhanced performance, highlighted by bevelled hull shapes, panoramic glazing, and remarkably generous interior and exterior spaces. With accommodation options reaching up to six cabins plus a skipper cabin, it stands out as one of the most versatile and spacious catamarans in its class.

On deck, the yacht offers a highly functional and comfortable exterior layout. The flybridge, accessible from two secure stairways, provides excellent visibility from the helm and a large modular lounging area with substantial integrated storage. The aft cockpit opens widely toward the sea, featuring broad transoms for effortless boarding and a flexible dining area that adapts easily for families or larger groups. Forward, a second cockpit creates an additional relaxation zone, with seating that converts into sunbeds and seamless access to the trampoline. Storage is abundant throughout the cockpit and flybridge, ensuring practicality during extended cruising.

Inside, the Lagoon 50 reveals a bright, spacious interior defined by warm materials, elegant finishes, and an innovative two-level saloon concept. The galley opens directly to the cockpit for easy service and social flow, while the slightly elevated lounge area offers panoramic views and can transform into a dining space when needed. The cabins benefit from exceptional natural light thanks to large hull windows and panoramic glazing in the aft suites, while island beds, generous storage, and well-designed bathrooms create a comfortable and homely atmosphere. The retractable central windscreen enhances ventilation and creates a unique connection between the saloon, cockpit, and forward deck.

Her new-generation rigging, inspired by VPLP’s racing experience, places the mast further aft, improving balance, reducing pitch, and offering multiple advantages: a self-tacking jib for effortless manoeuvres, a larger forward triangle for downwind sail options, a shorter boom for easier handling, and a high-aspect mainsail that captures superior airflow for optimized performance. Combined with twin 107 HP engines, a generator, air-conditioning, watermaker, hydraulic platform, teak cockpit, and a fully equipped tender, this Lagoon 50 delivers a complete package for owners seeking comfort, autonomy, and modern sailing capability.

Overall, this yacht stands out as a beautifully designed, exceptionally spacious, and thoroughly equipped multihull that blends performance, practicality, and contemporary luxury—an ideal choice for extended cruising and premium onboard living.

Equipment
