Description

Marex 375 – Year of manufacture 2021This beautiful Norwegian Marex 375 combines Scandinavian design with high-quality finishes, smart details, and excellent onboard comfort. With a length of approximately 12 meters, two cabins, and four fixed berths, this motor yacht is ideal for comfortable holidays and longer trips on the water.
The Marex is known for its well-thought-out layout and innovative solutions. The spacious open cockpit, the bright saloon with helm station and dinette, the fully equipped galley, and the comfortable bathroom ensure a pleasant stay on board. Furthermore, thanks to the clever convertible canopy and the sheltered cockpit, the yacht is suitable for a wide range of weather conditions.
The powerful Volvo Penta D6 diesel engine with approximately 435 hp ensures impressive performance. The combination of a modern underwater hull and high-quality propulsion technology makes this Marex suitable for both relaxed cruising and swift transit. An electric bow thruster and stern thruster facilitate maneuvering in harbors.
This Marex 375 comes from the first owner and has spent the past winters ashore. Maintenance has been demonstrably carried out, which contributes to confidence in the care of the vessel. The boat is also equipped with, among other things, a generator, air conditioning, a teak deck, an electric anchor winch, and Raymarine navigation equipment.
A complete and excellently equipped motor yacht for those who value quality, comfort, and a meticulous ownership history.
