Détails

Réf du bateau	**s313376**
couchettes	**8 (dont couchettes d'équipage: 3)**

Données techniques

Tirant d’eau	**1 m**
Matériau de la coque	**polyester**
Type de coque	**carène semi-planante**
Chauffage	**chauffage avec air conditionné**
Réservoir d’eau	**800 l**
Réservoir de carburant	**3 240 l**

moteur

Modèle	**Cummins QSC 8.3**
Puissance	**600 cv (441 kW)**
Modèle	**Cummins QSC 8.3**
Puissance	**600 cv (441 kW)**

Équipement

Navigation	**AIS - Système d'identification automatique, autopilote, GPS, GPS plotter, localisateur de poisson, sondeur**
Equipement technique	**batterie, climatisation, écran centrifuge, équipement solaire, générateur, lumière sous-marine, manuels, peinture sous-marine, pompe de cale - automatique, prise de quai 220 V, prise électrique 220, propulseur d'étrave, réservoir de rétention, système d'eau chaude**
Equipement du pont	**amortisseur, cockpit en teck, coussin de soleil, douche de poupe, échelle de bain, plateforme de bain hydraulique, pont en teck**
Intérieur	**2e frigidaire, barbecue, four, glacière, hotte, lave-vaisselle, machine à laver, micro-ondes, plaques vitrocéramiques, réfrigérateur, table de cabine, WC électrique**
Equipement de divertissement	**antenne TV / DVB-T, lecteur mp3 avec bluetooth, TV**
Sécurité	**bouée de sauvetage, coffre-fort, extincteur, gilet de sauvetage, système d'alarme**
Couvertures	**hard top, taud de soleil**
Distribution - cabines	**cabine d' equipage - séparé (2), cabine invités (3), cabine propriétaire (1), entrée latérale, position de conduite sur le flybridge, salon, toilettes**

Description

The Oceanwalker S60 Revolution Edition Hull 14 and Hull 15 are currently under construction, with delivery expected in approximately 3–6 months. Developed specifically for the European market, the Revolution Edition offers an enhanced standard of finish, carefully selected materials and an extensive specification based on internationally recognised equipment brands. Depending on the stage of construction, selected elements of the configuration and interior may still be customised.

At 18.29 metres in length and 8.38 metres in beam, the S60 provides the space and comfort normally associated with a considerably larger yacht. The shallow 1.00-metre draft allows access to anchorages that are unavailable to many conventional motor yachts.

The yacht offers four spacious guest cabins for eight guests, each with a private en-suite bathroom. Two additional crew cabins accommodate up to three crew members, while a separate day head is located on the main deck.

POWER AND RANGE

Propulsion is provided by two Cummins QSC 8.3 diesel engines, each producing 600 HP and coupled to reliable V-drive transmissions. With a standard fuel capacity of 3,240 litres, the anticipated cruising range is approximately 1,000 nautical miles, depending on speed, load and sea conditions.

The yacht is also equipped with a 120 kWh LFP service battery bank and more than 8.5 kW of solar panels. This system is designed to supply the yacht’s domestic electrical loads and significantly reduce generator operating time, providing quieter and more comfortable periods at anchor. The installation is supported by premium Victron power-management equipment and a 32 kW Kohler generator.

PREMIUM EQUIPMENT

The Revolution Edition specification includes carefully selected equipment from leading international manufacturers:

• Miele induction hob, oven, dishwasher and washer-dryer
• Siemens 502-litre refrigerator/freezer
• Dometic air-conditioning system
• Garmin navigation and communication package
• Fusion audio system
• Side-Power manoeuvring equipment
• Two Rainman watermakers, each producing approximately 140 litres per hour
• Hydraulic bathing platform
• Teak exterior decking
• High-quality LFP battery and Victron energy-management system
• Kohler 32 kW generator
• Premium interior materials and European-style finishing standards

The combination of a large battery bank, substantial solar capacity and efficient energy management makes the S60 particularly well suited to extended stays away from marinas.

PURCHASE AND DELIVERY SUPPORT

Elit Yachts provides full assistance throughout the purchase process. We can organise an inspection at the shipyard, supervise the completion and acceptance of the yacht, coordinate documentation and commissioning, and arrange professional transport to the buyer’s chosen destination worldwide.

Hull 14 and Hull 15 represent an opportunity to acquire a new, comprehensively equipped Oceanwalker S60 without waiting for a future production slot.

Price: EUR 3,000,000 excluding VAT.
Delivery: approximately 3–6 months.
Full specification and final configuration are available on request.
