Modèle	**Volvo Penta D6**
Puissance	**370 cv (272 kW)**

Description

The boat was Princess's exhibition boat at the prestigious boat show in Düsseldorf, which means she was ordered with a very comprehensive and well-considered equipment level, and has since operated in freshwater and been winter stored in a cold hall, which is clearly reflected in her current condition.

Here, Princess' renowned build quality, sporty handling characteristics, and elegant design come together in a modern premium cruiser that is equally suited for fast passages through the archipelago as for comfortable and relaxing weeks on board. The well-balanced deep V-hull provides safe and stable handling, while the generous and social cockpit offers fantastic opportunities for socializing, relaxation, and long summer days on the water.
Below deck, you are met by a modern and well-planned interior with two separate cabins, a spacious bathroom, and a bright and inviting saloon with a well-equipped galley. The large hull windows provide generous natural light and contribute to the exclusive and airy feeling that is typical of the modern Princess V series.
This is a vessel for the discerning buyer seeking something out of the ordinary. Exhibition boat from Düsseldorf, first commissioned in 2020, richly equipped, used only in the freshwater of Lake Mälaren, and winter-stored indoors in a cold hall – a combination that makes this Princess V40 an exceptionally attractive example on the market.

Equipment List

ENGINE & PROPULSION
• 2 x Volvo Penta D6 370
• DPH-D sterndrives with joystick control
• Bow thruster
• Automatic sterndrive power trim
