Description

Remarks :
The Scanmar 33 is a highly respected Swedish-built cruising yacht, renowned for its exceptional build quality, safe offshore capabilities and surprisingly spirited sailing performance. Designed for sailors who value reliability, comfort and seaworthiness, this 33-foot cruiser is perfect for coastal passages, extended cruising and offshore adventures.

Built with robust craftsmanship that Scandinavian yachts are famous for, the Scanmar 33 features a solid fibreglass hull, a well-balanced sail plan and a confidence-inspiring fin keel and spade rudder. She tracks beautifully under sail, handles heavy weather with ease and remains responsive and enjoyable in lighter conditions.

Below deck, the interior is warm, practical and beautifully finished in quality wood joinery. The spacious saloon provides a comfortable living area while the well-equipped galley, dedicated navigation station, generous head compartment and private fore and aft cabins make extended cruising a pleasure. Excellent storage throughout ensures there's room for all the gear you need for life aboard.

Whether you're looking for a capable offshore cruiser, a dependable family yacht or a classic Scandinavian design that will hold its value, the Scanmar delivers on every front. These yachts have earned an outstanding reputation among experienced sailors for their strength, sailing performance and timeless design.

'Aella' has been very well cared for and maintained by her current owners and is an excellent example of a Scanmar 33. She comes fully equipped with everything you need for a voyage and is ready to sail away immediately.
